

## FleetPulseGO Solar

Always-On Tracking for Unparalleled Fleet Visibility

### Key Benefits

- **Continuous Monitoring:** Solar-powered for uninterrupted tracking and health data
- **Comprehensive Insights:** More than just GPS – get a complete view of your asset's status
- **Durability:** Sealed case design for protection in demanding environments

### Features

- High-efficiency solar panel with best-in-class Lithium-ion battery
- Real-time GPS location tracking
- Integrated motion sensing
- Supports up to 10,000 11-point geofences
- Optional ultrasonic cargo sensor and Bluetooth connectivity

### Value to Your Fleet

#### Comprehensive Fleet Oversight

- Easily locate trailers as needed
- Improve overall fleet management with a bird's-eye-view of all assets
- Enhance asset utilization and reduce idle time

#### Real-Time Responsiveness

- Quickly respond to customer ETA inquiries with accurate information
- Proactively manage schedule changes and route deviations
- Ensure deliveries occur as planned

#### Greater Uptime and Optimization

- Enhance visibility, efficiency, and security for all fleet assets
- Generate automated inventory reports
- Enable faster trailer identification in yards

#### Improved Operational Efficiency

- Optimize routes with real-time location data
- Reduce dwell time and improve asset utilization
- Streamline yard management
- Make data-driven decisions to enhance overall fleet performance

### Why FleetPulseGO Solar?

FleetPulseGO Solar elevates your fleet management with continuous, reliable data powered by sustainable solar energy. Its robust features provide a comprehensive view of your assets' location, health, and status, enabling you to make informed decisions that drive efficiency, safety, and profitability.

*Harness the power of intelligent asset monitoring to illuminate your fleet's performance with FleetPulseGO Solar.*
