

FleetPulseGO Track

The Ultimate “Set It and Forget It” Asset Tracker

Key Benefits

- **Effortless Asset Protection:** Up to 7 years of battery life for worry-free tracking and recovery
- **Discreet Placement:** Ultra-compact design for quick and hidden placement
- **Zero Maintenance:** No hardwiring or upkeep required

Features

- Customizable, automated check-ins
- Extensive cellular and GNSS coverage for accurate tracking
- 3-axis accelerometer for motion detection and impact sensing
- Configurable modes based on asset movement or recovery needs
- 1p67 rated for durability in harsh environments

Value to Your Fleet

Enhanced Security

- Reduce trailer thefts with location tracking
- Recover stolen assets quickly, minimizing losses

Improved Efficiency

- Optimize asset utilization with precise location data
- Reduce time spent searching for assets in yards or remote locations

Cost Savings

- Eliminate installation and maintenance costs
- Extend tracking lifespan without battery replacements

Customizable Asset Management

- Tailor tracking schedules with customizable, automated check-ins
- Easily adjust settings as your fleet management needs evolve

Why FleetPulseGO Track?

FleetPulseGO Track offers a low-cost, high-impact solution for fleet visibility and asset recovery. Its long battery life, rugged design, and versatile functionality make it the perfect choice for fleet managers looking to enhance security and operational efficiency without increasing maintenance overhead. With customizable features, FleetPulseGO Track adapts to your unique fleet management requirements, providing a tailored solution that grows with your business.

Protect your assets, optimize your operations, and drive your bottom line with FleetPulseGO Track.
